PECS Basic Training

This intense two-day training is designed to teach participants to appropriately implement the Picture Exchange Communication System. It begins with an overview of the Pyramid Approach to Education to explore the key components of designing effective educational environments. A historical overview of language training programs used with non-verbal individuals is discussed along with how to set the stage for an abundance of communication opportunities. Participants will learn how to implement the six Phases of PECS, including attributes, through presenter demonstrations, video examples and role-play opportunities. Participants will leave the workshop with a fundamental understanding of how to implement PECS with individuals with autism, related developmental disabilities, and/or limited communication skills.

What You'll Learn:

- The key Pyramid components to designing effective educational environments
- Strategies to create an abundance of opportunities for communication
- How to discuss in detail the Picture Exchange Communication System and its relationship to traditional training programs
- How to implement all six Phases of PECS with target individuals using a behavior analytic orientation
- The criteria for transitioning from PECS to other communication modalities
